
Crossing Borders / Building Bridges

“Crossing Borders and Building Bridges” has been one of the most longstanding and highly anticipated series of multi-cultural programs established anywhere in this region. For enlightenment, the furtherance of inter-cultural understanding, and formal classroom education, “Crossing Borders” has brought breadth and depth of understanding to countless topics ranging from philosophy, through religion, and on to dance. This program has achieved 100% of its support from donors and has continued to do so for over nine years - a testimony to the quality of the programming provided by Mrs. Neelam Canto-Lugo and her associates.
