
Disabled Students Program Fund

The Disabled Students program recognizes that disabled individuals, when given an appropriate educational environment, are capable of extraordinary achievements. The Disabled Students Program Fund, along with its cousin scholarship fund, provides a breadth of opportunity for disabled individuals through the purchase of equipment, high-end assistive technology, mentoring and improved access to educational opportunity. Because the needs of disabled students vary widely, every effort is made to tailor equipment and assistance to individual needs. The philanthropic support of individuals like yourself can go a long way in creating another Yuba College success story.
