
Infant-Toddler Program

Never has there been a greater need for training in child development. The Early Childhood Education and Infant-Toddler programs are dedicated to the training of individuals to work in the childcare professions or to be loving and effective parents.

The support of donors is needed to create a climate in which both prospective caregivers and children can find fulfillment, creativity and support. In the past, gifts to this program have been used to purchase equipment and supplies, as well as to organize events for the participants.
