
Special Events Fund

The Special Events Fund not only provides seed money for fundraising events, but also gives direct support to those academic programs that assist in the annual production of the Foundation's Holiday Party. Over the years, profits from the Holiday Party have provided direct support to the Yuba College Speech Team, to the Culinary Arts Program, the Automotive Technology program, the Instrumental Fund and the Choral Program - all of whom have provided student support to the event. Additionally, profits from this special event have given seed money to Woodland Community College and Yuba College to develop fundraising events of their own. The Foundation has raised close to \$40,000 through the Holiday Party alone and your support will continue to make this a worthy fundraiser for student programs.
