# Student Services Fund

---

The Student Services Fund was established by an anonymous donor who recognized that many students stop-out or drop-out altogether because of short-term funding crises. Often family emergencies, unexpected bills, illnesses, transportation failures, or simply the need to temporarily fill the cupboard cause students to miss classes, stop out, or leave school altogether. Because these funds are closely monitored, only cases that have been thoroughly reviewed receive support and are thereby very worthy of any assistance you might provide.
