
Theatre Program Fund

Under the direction of David Wheeler, the Yuba College Theatre Program has provided not only an excellent education in the Theatre Arts, but has also entertained the residents of the Yuba-Sutter area for several decades. The ability of this program to harness and focus student talent has allowed many of these students to move on to successful careers in the multiple professions surrounding American theatre.

The Theatre Program Fund assists with purchasing materials for stage sets, provides costuming support, helps with contracting outside support for various events, and gives the program that extra edge in producing excellent entertainment and education. Also note that the Theatre Program Fund is occasionally utilized for direct student scholarship support.
