

Yuba Community College District

First Aid Kit Refills

Please check the First Aid Kits on a quarterly basis every August, November, February, and May for any refills that may be needed.

The following departments have received a First Aid Kit from the Student Health Center:

Student Health Center
Police Department
Campus Life
Auto Shop
Library
Maintenance
P.E. Office
Science Department
Information Systems

If your department has a First Aid Kit, the First Aid Kit Refill Checklist should be completed on a quarterly basis even if refills are not needed so as to document and keep on file the most recent check date.

After the Refill Checklist is completed and refills are needed, it should be submitted to the Student Health Center. Please keep a photocopy of the completed First Aid Kit Refill Checklist on file if supplies are needed. Refill supplies will be delivered within ten working days of receiving the First Aid Kit Refill Checklist or as soon as the ordered supplies arrive. If the first aid kit supplies have not been received within ten working days of the First Aid Kit Refill Checklist submission date, please ask the Student Health Center about the status of the refill delivery at 741-6818.

Your assistance in making sure the First Aid Kits are sufficiently stocked is greatly appreciated. The Student Health Center encourages faculty and staff to involve the students in checking the first aid kits. This would emphasize the importance of sustaining a healthy and safe work environment.
