

**Yuba Community College District
Measure J Bond Program
RFQ 08-001 for Architectural / Engineering Design Services
RFQ Questions & Answers**

Effective: October 1, 2007

RFI #	Question	Answer
1.	District direction:	This compilation includes those final questions received by the District between September 27, 2007 and September 28, 2007, the last day for the submittal of questions to RFQ 08-001.
2.	Does a firm NOT qualify if it does not have the following:..."...a minimum of five (5) completed similar projects that were subject to the jurisdiction of the State of California Division of State Architect (DSA) for which your firm served as the Architect or Engineer of Record...(Section 6.C.1)?	No. This would not preclude a firm from qualifying.
3.	Can you tell us what the program breakdown will be for the new Health & Public Safety Building on the Marysville Campus?	No. This information is not available at this time.
4.	Can a consultant submit as a prime; but also as a Subconsultant for another team?	Yes. Please refer to Item #1 of the Questions and Answers dated: September 14, 2007, and Item #24 of the Questions and Answers dated September 27, 2007. All interested parties are encouraged to submit qualifications, as individual firms, to the appropriate general project type(s) listed in Section 3.0. In addition each consultant may consider it appropriate to promote their qualifications to other firms that may respond to this RFQ, in an effort to facilitate their possible inclusion as a Subconsultant.
5.	For projects such as the fields and infrastructure upgrades; will the district be planning on hiring subconsultants directly; or under the supervision of an Architecture firm?	No.
6.	District direction:	Please see those Questions and Answers dated: September 14, 2007, September 21, 2007, and September 27, 2007, previously posted to the Measure J Website.
