

**Yuba Community College District
Measure J Bond Program
RFQ 08-003J for “ON-CALL” Professional Services
RFQ Questions & Answers**

Effective: October 10, 2007

RFI #	Question	Answer
1.	On the download website, there are two “searches”, a current “2007 NAICS Search” and a previous “2002 NAICS Search.” Please clarify which current “NAICS Revision” you would like us to use for the “Supplemental Information Form.”	The 2007 NAICS Search.
2.	We plan on submitting for both Constructability Review and Value Engineering services. Would you like us to submit one SOQ combining both services or separate it into 2 SOQ’s?	One “Statement of Qualifications Supplemental Information Form” will be sufficient. Just indicate each service for which your firm wishes to be considered by the District, on a separate line within your response to Section 8.0
3.	Other than listing what services we are submitting for Section 7.2, this section does not require any sort of response. Is this correct?	Section 7.2 of the RFQ does not require a specific response. It is provided as the listing of those discipline/consulting services from which responding firms are to choose/indicate when completing the specific response(s) required to Section 8.0 of the “Statement of Qualifications Supplemental Information Form.” While Section 8.0 provides separate lines for 8.1 through 8.5, respondents may insert additional lines, starting with 8.6, to accommodate the inclusion of additional categories for which they wish to be considered by the District.
