

Create a Catapult EMS tile on your mobile device

Generate an emergency message easily from your cellphone

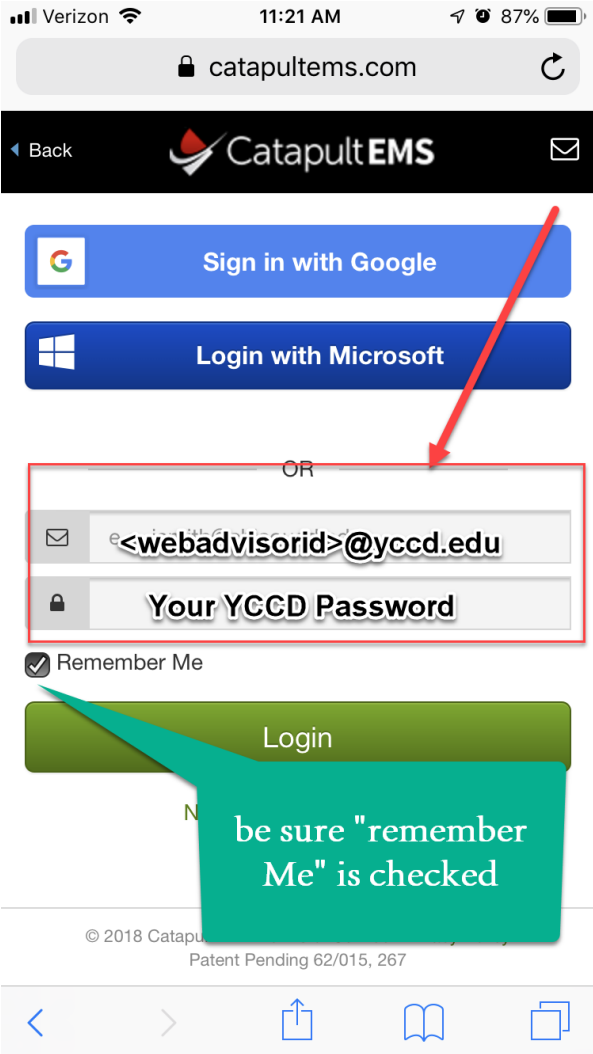

Step #1: iPhone & iPad users (Apple iOS)

- ON your iPhone/iPad - with the built-in Safari Browser, navigate to <https://www.CatapultEMS.com>

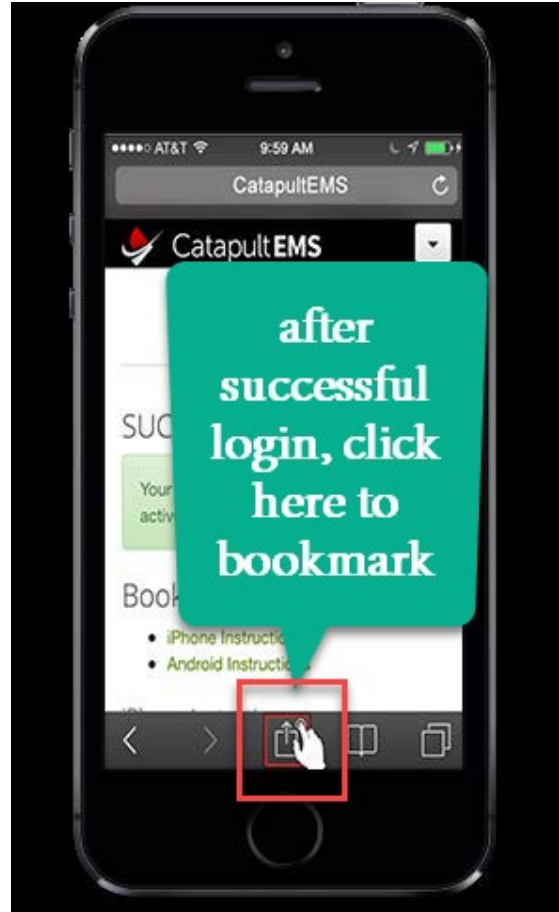

Sign into the site with your [webadvisorid@yccd.edu](mailto:<webadvisorid>@yccd.edu) and YCCD Login password.

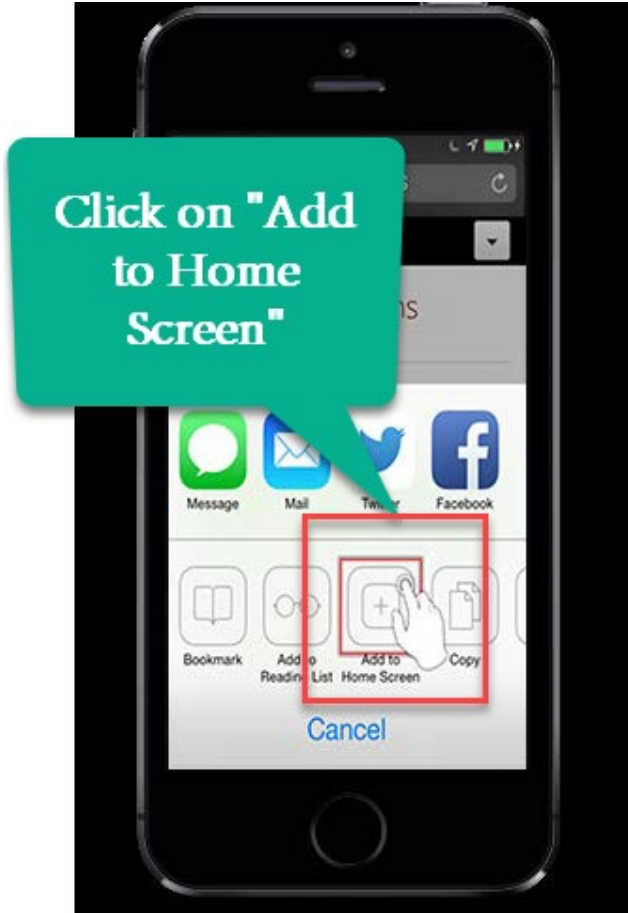

Step #2: Login to catapultems.com on your phone with your YCCD credentials.

Step #3 Bookmark the app via your browser

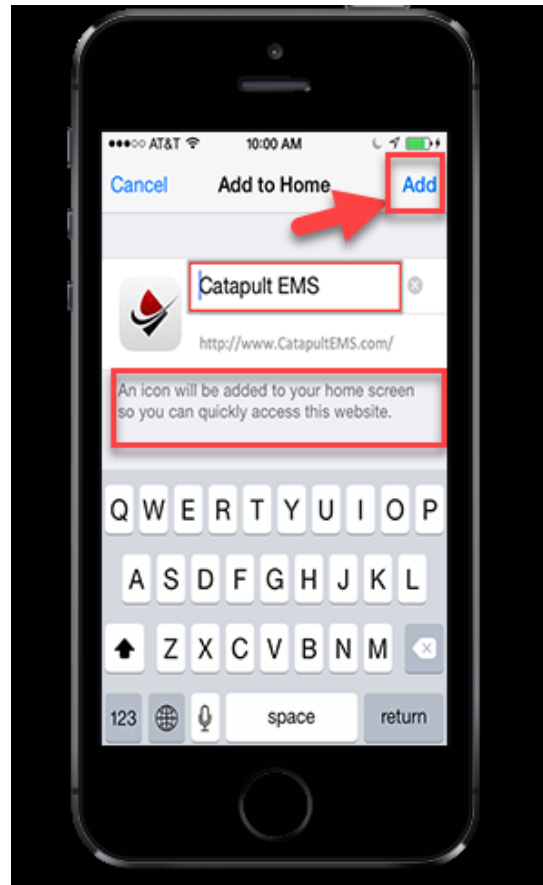

Step #4: Add Tile to home page

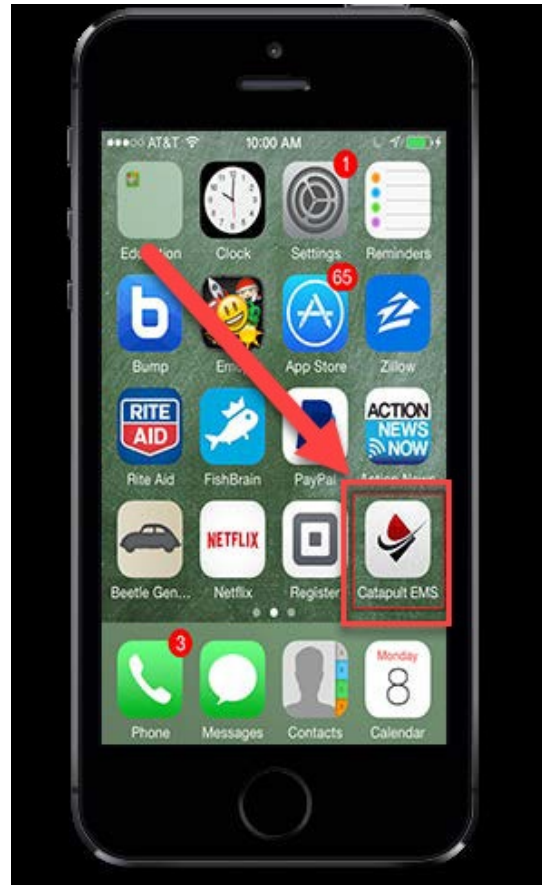

Step 4:

Confirm “Catapult EMS” as your App title and click “Add”. Note: If you wish to name this something else, you may. Keep it short to fit under the icon.

Step 5: Place Catapult EMS icon on home screen of your phone

The Catapult EMS icon will appear in the first available app location on your iPhone! Note: Move this icon to a primary position on your phone for quick access.

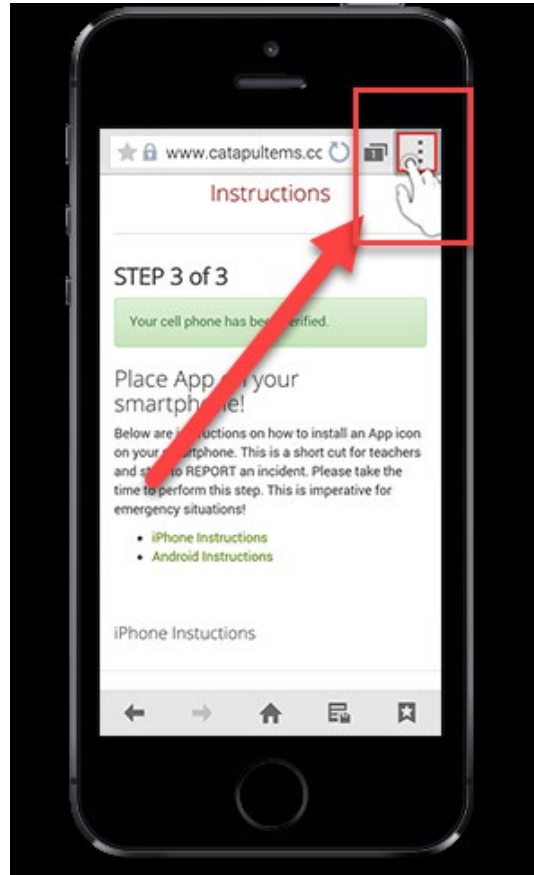

Android Phone instructions

- On your Android powered mobile phone- open the Chrome browser on your phone and navigate to <https://www.CatapultEMS.com>
- Login via <webadvisorid>@yccd.edu and your YCCD password

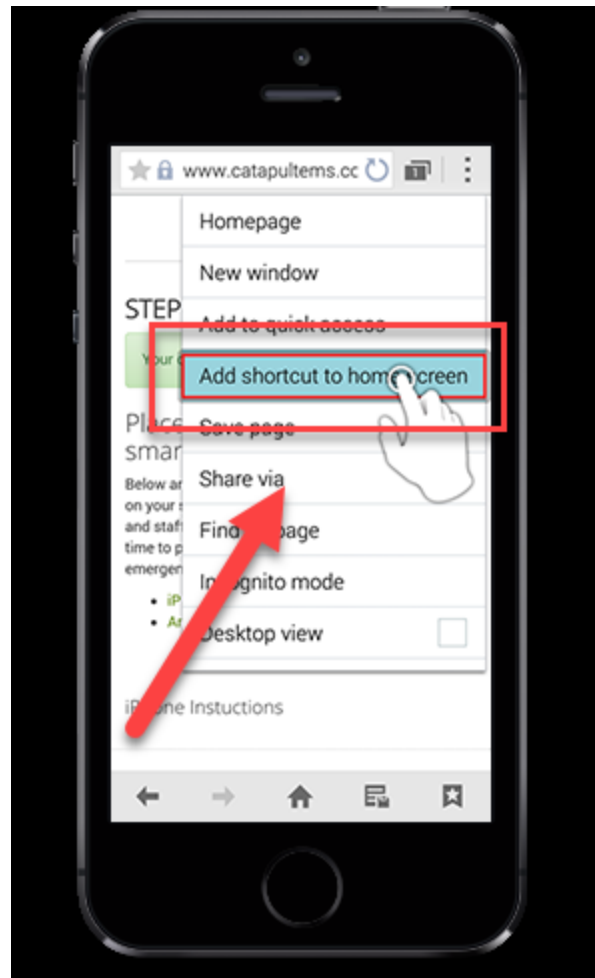

Step #1:

To place bookmark, tap the menu icon at the top-right of your screen. *(If you do not see the top-right menu, please open the link in Chrome).*

Step #2:

Tap on “Add shortcut to home screen.”

Step #3:

Tap on “Success!” The icon has been added to your Android Smartphone
