

HOW TO INSTALL CAMTASIS

Please use the following instructions to install Camtasia on your District provided computer.

Must be connected to the YCCD Network (not WiFi connected)

1. Select the Microsoft Start Button, bottom left corner.
2. Type in "Software Center," and open the Software Center App
3. Select the Camtasia 2019 Icon
4. Select "Install"
5. Once the application has finished installing, you will be able to find the application by going back to the Microsoft Start Button.
6. If Software Center cannot be accessed through the Windows Start menu (#1 above) or the installation fails:
 - a. Double confirm that you are on the YCCD network and NOT connected through WiFi
 - b. Contact Help Desk helpdesk@yccd.edu or 6981. We will need your ID number and the name and location of the computer. To look up the name, see steps below.
 - i. Right click on "This PC" desktop Icon
 - ii. Select Properties
 - iii. Provide Computer Name: Under Computer name, domain, and workgroup settings

Installation on a Personal Device

The license agreement also provides faculty the opportunity to install a copy of Camtasia on a single personal device so long as it is not used concurrently with your District provided license. Instructions are available at <https://apps.yccd.edu/Camtasia>.
