

We should be clear that "The District" is not the same as "District Services." The District consists of the Colleges and District support Services

Promote and guide more students to want to obtain further education

Provide low cost education to our community

The district exists to coordinate activities at each college at scale. Students learn at colleges, not the district.

To Provide educational and professional opportunities to better local communities and economies

make students job-ready to assist employers in the community

Better Future

Access to Career Training and Higher Ed for communities in our service area.

We help students achieve their dreams and goals

Provide opportunities through multiple modalities

affordable education to the students!

Offer career choices to our communities.

Equal access to education for everyone

To lead and support the delivery of educational services to students and the community

To be an agent of hope and change for a changing and diverse world

Life-long learning

provide opportunities for the community

Equity and improve the quality of life for our communities.

Affordable education to the student!

skills training and classes that

Change lives.

to open a door introducing students to their future

The district exists to promote learning and economic development in the service area.

gives individuals the opportunity to better themselves

Really good IT, HR, Facilities, and Fiscal support.

Student and staffing equity

Mission Statement

Vision Statement

What CD strive for? What do we want to achieve in an organization?

Be the main education provider to our community members

Be the main education provider to our community members

A place that leads to transfer (2 years and your out). Do what we say and your done in two years.

The vision should include an element for addressing how we are addressing our students' needs in the next five to 10 years.

Problem solving strategies to societies challenges

Equity! Our service area is under educated, under resourced, rural, low socio economic status and we must create systems that help ALL students succeed academically.

A sense of place for the community

Will be the catalyst that transforms students' lives through education

transform the lives of all people

Relevant, high quality, affordable, and accessible instruction.

A diverse and global understanding of our communities

Our students will be prepared to be leaders in the intellectual, civic, cultural and economic life of their communities and their world

Student Success and Achievement

An educational destination for our service area.

Degree attainment and career placement

A clear path for students

Fiscal stability

affordable and equitable education for all

a safe space for educational and career exploration that is student-centered

To have all students, staff, and faculty feel valued and supported

To lead and support the delivery of educational services to students and the community

Promote civic virtue and engaged citizenship

an environment in which students can succeed

equitable opportunities for every individual who seeks education

An educated and prepared workforce and an economical and and socially thriving community

Increasingly high rates of attainment of students educational goals.

Engaged faculty who put students first

Access to education and career development/training for the people in our communities.

A place that leads to employment (Get a job)

student-centered teaching and learning

Transform lives

Guided path for everyone in the community
