Pharmacy: Anthem Carelon Rx

Tri-County Schools Insurance Group's pharmaceutical benefits manager is Carelon Rx.

Prescriptions are processed through Carelon Rx's system based upon the copay structure of TCSIG's Plans. Members should utilize a Carelon Rx pharmacy in order to receive the maximum benefit of the Plan. To locate a network pharmacy call (833) 439-1004.

The Carelon Rx Prescription Drug List [Click for Prescription Formulary](#) references the most commonly prescribed medications available to treat a variety of conditions. The medications are placed into levels known as "tiers" that will determine what the cost share will be for the member (see below).

- Tier 1 = generic medications
- Tier 2 = preferred or formulary brand medications
- Tier 3 = non-preferred or non-formulary medications
- Tier E = medication is excluded from coverage, alternatives listed at end of Formulary

Prescription Drugs	Retail (up to 31 day supply)		90 Day Supply (Mail Order or Retail)		Subj. to ded./coins.
Generic (tier 1)	\$5 copay		\$10 copay		<i>(pay up front at pharmacy until deductible/coins. met)</i>
Preferred Brand (tier 2)	25% to max of \$35		\$50 copay		
Non-Preferred (tier 3)	45% to max of \$70		\$90 copay		
Maximum Annual RX Copays: (After your Rx copays reach the following amount, then TCSIG pays 100% of Rx for the rest of year)					
Individual	\$1,000	\$1,000	\$1,000	\$1,000	Subj. to ded./coins.
Family Maximum	\$2,000	\$2,000	\$2,000	\$2,000	Subj. to ded./coins.

Also when reviewing the Prescription Formulary you may notice the below codes listed next to a medication name.

- PA = prior authorization. You may need to get benefits approved before certain prescriptions can be filled.
- QL = quantity limits. There are limits on the amount of medicine covered within a certain amount of time.
- SP = specialty drugs. Specialty drugs are used to treat difficult, long-term conditions. You may need to get this drug through a specialty pharmacy.
- ST = step therapy. You may need to use another recommended drug first before a prescribed drug is covered.
- DO = dose optimization. Usually, this means you may have to switch from taking a drug twice a day to taking it once a day at a higher strength.
- LD = limited distribution. These drugs are available only through certain pharmacies or wholesalers, depending on what the manufacturer decides.
- OC = oral chemotherapy. These drugs after deductible shall not exceed \$200 per an individual prescription for up to a 30 day supply.

Healthcare Bluebook

Healthcare Bluebook is a FREE added healthcare benefit to help you shop for care, compare facilities, save money on healthcare services, and earn rewards. The web and mobile applications make it easy to save money on hundreds of the most common medical services and procedures by showing you the cost ranges in your area and providing you with a selection of FAIR PRICE facilities.

Bluebook's web and mobile application make it easy to save money on hundreds of common medical services and procedures by showing you the cost ranges in your area and providing you with a selection of Fair Price™ (green) facilities.

Detailed information is also provided on the quality of common inpatient procedures (those that require a hospital stay). Healthcare Bluebook will help you to easily identify and select a facility that has a high-quality rating.

What is the "FAIR PRICE?"

The Fair Price™ is the amount you should reasonably expect to pay for a service or procedure and is based on the actual amount paid on the claim, not the billed amount, reflecting the discounts that the health plan has negotiated with the facility.

Here's an example of dramatic price differences between one facility and another.

QUALITY

Aren't all hospitals good at everything?

No, very few hospitals are good at all procedures. For example, a hospital can be among the highest performing facilities in the US for heart surgery, yet the same hospital can also be among the lowest performing facilities for joint replacement.

Can cheaper mean better quality? YES! Absolutely!

Providers with lower costs can have higher quality; there is no correlation between high cost and high quality. Healthcare Bluebook provides cost and quality ratings side-by-side for inpatient procedures,

which is where quality matters most. By using Bluebook, it's easy to see which facilities offer the highest quality at the lowest costs.

REWARDS

How do I earn Go Green to Get Green Rewards?

In order to qualify, you'll be required to search for your procedure in Healthcare Bluebook prior to having your service completed and use a Fair Price™ facility for your care. Bluebook does all of the processing; there are no additional forms to submit.

Always check in-network status before scheduling.
