The last table, shown on the last day, looks at the current YCCD Census Enrollment for Fall.

Note 2: Projected End of Term is calculated by using the percentage of this day last year and the end of last years term, and applying it to this year.

Note 3: For the next two pages, although the Section Count will be presented, there may be some discrepancies that require change on the backend of the data due to how point to point classes are calculated.
