2026 A&R Retreat

WCC and YC Admissions and Records

The 2026 Admissions & Records Retreat brought the team together for a day of collaboration, discussion, and planning around key A&R processes, including enrollment practices, CCCStart, SoftDocs, and forms development. The retreat provided an opportunity to align current priorities, discuss upcoming initiatives, and continue strengthening communication across the team.

A highlight of the day was the team-building experience at Activate, where staff had the opportunity to step away from their daily responsibilities, have fun, and work together in a different environment. The activity reinforced that strong teams are built not only through collaboration on important work, but also through shared experiences that foster trust, communication, and unity.

YC A&R Team

VPI/VPSS Retreat

On July 22, 2026, district and college leaders participated in a collaborative retreat focused on strengthening alignment across enrollment management, admissions and records, curriculum processes, and student support services. Discussions centered on improving communication, clarifying roles and responsibilities, and establishing more consistent districtwide practices.

By working together, district and college leaders are better positioned to streamline processes, improve service delivery, and ensure students have equitable access to the resources and pathways needed to reach their educational goals. The team will continue building on this work at the next retreat scheduled for September 11, 2026.
